

**One Week Workshop on Empirical Research Using Micro-level Data of NSSO
from 30th March to 5th April 2015**

Concept Note

Department of Economics University of Kashmir in collaboration with Ministry of Statistics and Programme Implementation (MOSPI), GOI is conducting a workshop on “**Empirical Research Using Micro-level Data of NSSO**” from 30th March to 5th April 2015. The workshop is expected to increase the awareness of participants on use and applications of NSSO data which is an indispensable data set for Socio-Economic research. This workshop will definitely go a long way in enhancing the research capacity of different stakeholders across disciplines and will enhance the reach and reliability of research conducted in the concerned areas.

Research related to labour force, work participation, poverty, inequality, unemployment, migration are generally based on NSSO data sets, however due to the complexities in extraction and processing of the same, most of the time primary surveys are resorted to, which for proper generalisation need to be supplemented with these data sets. It is to increase the awareness about the use of NSSO data that the present workshop is being conducted.

Apart from the main theme the resource persons will be extensively deliberating upon the use of STATA 13 available with the department. **Each participant will be required to bring along a personal Laptop.**

Applications are invited from Research scholars and faculty members engaged in Socio-Economic and Industry related research work.

We will be in a position to accommodate only 10 out of station participants. Due to paucity of funds no TA will be reimbursed. We will be happy to provide local accommodation and food.

Last Date for Submission of filled Application Form: 23-03-2015

Intimation to Selected Candidates: 25-03-2015

Submission of DD by Selected Candidates: 28-03-2015

Programme Commences on: 30-03-2015

Registration Fee: Rs. 1500
